

LECTURE AND SEMINAR SERIES

# INTERNATIONAL ASPECTS, CHALLENGES, AND VISIONS OF TEACHER EDUCATION.

This lecture series brings together international expertise on current aspects and challenges of teacher education and educational systems. The lecture series consists of keynotes, given by international partners, and hands-on discussions or work-units that involve the audience. In addition, participating students from the University of Greifswald will organize round tables and compose a press release at the end of the course which will include main insights gained.
